- Loudness for bass and treble enhancement

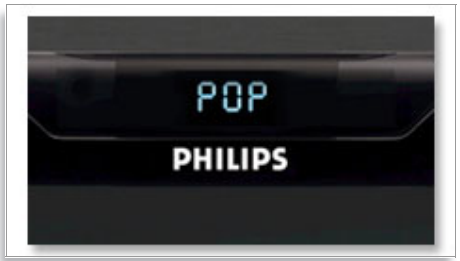
Easy to use

- Motorised CD loader for convenient access
- Radio Data System for station information and data services
- Wake-Up and Sleep Timer

PHILIPS
sense and simplicity

Highlights

Digital Sound Control



Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classical controls you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximises your music enjoyment by emphasising the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

MP3 Link for portable music

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

USB Direct-MP3/WMA

With the USB Direct mode, you can simply select the music on a USB device and playback all your content. All you have to do is plug in your USB device to playback music or export content from the device.

Loudness for bass and treble

In the sound spectrum, high and low frequencies are relatively less audible to human ears - especially at low volumes. With the Loudness feature activated, the bass and treble will be amplified so you can savour a more balanced sound perception overall.

Specifications

Sound
- Output Power: 2 x 25 W RMS/2 x 50 W music power
- Sound Enhancement: Digital Sound Control 4 modes, Dynamic Bass Boost, Loudness
